

Press Release – Trident Manor Launches a new Training Academy

For several years Trident Manor has been involved in the delivery of specialist security and risk management training programmes that increase knowledge and develop the skills of the recipients. The demand for the programmes has continued to increase leading to engagements in America, Europe, Africa, and the Middle East. In light of this, a decision has been taken to create an accredited centre of excellence dedicated to the delivery of security, risk, and crisis management learning opportunities. Hence the launch of the **Trident Manor Training Academy**.

Trident Manor has a proud reputation for delivering high quality learning programmes that are bespoke and built specifically around a client's needs. Whilst this will continue, the training and development services have been expanded to meet the increasing demands of clients, including from the corporate, humanitarian, hospitality, and cultural sectors. Our team of instructors have been brought together because of the specialist skills and experiences and their known delivery of professional services. All are experts within their particular specialist areas, and we are proud to be associated with each of them.

To ensure the delivery of quality services Trident Manor wanted the academy to be officially recognised through passing an extensive audit and evaluation process. This journey started in February 2020 and in June resulted in the organisation being accredited and recognised as an '**Approved - Highfield Qualifications Centre**' and a member of the '**CPD Certification Service**'.

Andy Davis, the managing Director of Trident Manor Limited said, ***“Although times are difficult for many there will continue to be a need for the delivery of quality services that are both regulatory and specialist in nature. Our training services have been recognised by global organisations as being of excellent quality and content, something we intend to continue to provide. The establishment of the academy allows this to happen whilst enabling continued growth and development, harnessing the skills that exist in the North East of England.”***

The depth and breadth of learning opportunities offered by the academy are suitable for regional, national, and international recipients and will involve a mixture of accredited and bespoke services. Programmes will be delivered at our Head Offices in Darlington, at client's venues, or internationally where the need arises.

For further information about the programmes that are available or the scheduling of them please contact the team at: training@tridentmanor.com .
